2010	16	31	0	47
3 Year Ave	25	42	2	69
% Change	-36	-26	-100	-32

General Overview

We looked at last year of complete Data – 2010 and compared to the 3 years prior average (2007-2009). The Grant was initiated in 2008. There was lots of focus, including 3 E's of Traffic Safety:

- Engineering
- Education
- Enforcement

Use of Stake holders in Education:

- Community leaders and local residents
- Commercial and recreational route
- Highway 12 Association

When you look at the numbers you see success. The Grant is now over, but focus still remains on all 3 E's. Enforcement numbers still comparable to 2010. We would actually like to see a decrease in incidents, but transient nature of the highway, perhaps not.
