Request for Proposal  
Mobility Management Travel Training

## INTRODUCTION

The Solano Transportation Authority's (STA) mission is to improve the quality of life in Solano County by delivering transportation projects to ensure mobility, travel safety and economic vitality.

The STA was created in 1990 through a Joint Powers Agreement between the cities of Benicia, Dixon, Fairfield, Rio Vista, Suisun City, Vacaville, Vallejo and the County of Solano to serve as the Congestion Management Agency (CMA) for Solano County. As the CMA for the Solano area, the STA partners with various transportation and planning agencies, such as the Metropolitan Transportation Commission (MTC) and Caltrans District 4.

The STA is responsible for countywide transportation planning, programming transportation funds, managing and providing transportation programs and services, delivering transportation projects, and setting transportation priorities. The STA uses an open and inclusive public involvement process through various committees made up of local elected officials, public works directors, transit operators, and interested citizens.

## BACKGROUND

Mobility Management is an important component of the overall transportation system, as it focuses on providing transportation options to low-income individuals, seniors, and persons with disabilities. The STA Mobility Management program provides residents with a family of services targeted to improve mobility for these specific segments of the population. Four program elements were developed that are aimed to assist individuals in maintaining their mobility.

- Countywide In-Person ADA Eligibility Process
- Travel Training/Travel Ambassador
- One Stop Information Call Center/Complementary Website
- Older Driver Safety Program

These elements are meant to work together to give a comprehensive transportation support system to the targeted population. Travel training, which is one of four elements of the Solano County Mobility Management Plan, focuses on people who have the ability to use fixed-route transit systems, but need supplemental guidance in order to feel comfortable. Four types of travel training will be utilized within Solano County: Group Training, Independent Training, One-on-One Training, and Intensive Training. Each of these travel training types is dependent on the needs of the transit user and therefore must be tailored to each applicant.

**The STA welcomes and encourages agencies to submit proposals to produce and administer a comprehensive mobility management travel training program for Solano County.**

The STA will award the proposer whose proposal presents the best value and is most advantageous to STA and the public. Accordingly, the STA may not necessarily award the proposer with the highest technical ranking or the proposer with the lowest price proposal if doing so would not be in the overall

best interest of the STA. STA reserves the right to expand or reduce the proposed scope of work during the contract negotiations based on budget constraints.

## **FINAL PRODUCT**

Consultant will be responsible for developing a countywide travel training and travel ambassador program that is tailored to each individual transit operator's needs.
