Rio Vista Waterfront Promenade Phase II

Solano Transportation Authority
. . . working for you!

Project Need and Purpose:

The Waterfront Plan and Promenade Projects are designed to beautify the waterfront, attract pedestrian and bicycle activity, serve as an anchor for future downtown development that includes water and transit-oriented uses, and provide better access to Rio Vista's historic downtown. Phase I was completed in 2009.

Improvements:

A 900 ft Class I multiuse path along the Sacramento River using old City ROW. Phase II improvements will link the south end of the completed Phase I path and terminate at Front St at Logan St. Improvements include:

- Concrete and paving stones
- ADA access
- Benches
- Irrigation
- Rock work
- Landscaping
- Drinking fountains
- Lighting

Project Status:

- Completion anticipated before Fall 2015

Funding Strategy:

TDA Article 3	$450,000
Rio Vista Local Match	$61,000
Total	**$511,000**
