SOLANO

## Bicycling Tips

Developed by the City of Portland, Oregon Bicycle Program

### BE PREDICTABLE

Ride so drivers can see you and predict your movements. Remember that the rules in the drivers manual apply to bicyclists also.

### BE ALERT

Ride defensively and expect the unexpected. Remember, bicyclists are more vulnerable.

### BE EQUIPPED

Always wear a helmet. It's the law for 18-year-olds and younger. Use protective gear and wear visible clothing.

### USE HAND SIGNALS

Hand signals tell others what you intend to do. Signal as a matter of courtesy and of self-protection.

### RIDE IN THE MIDDLE OF NARROW LANES

When the lane is too narrow for a car to pass you safely, ride in the middle of the lane.

### NEVER RIDE AGAINST TRAFFIC

Bicyclists must ride with traffic. Motorists are not looking for bicyclists riding on the wrong side of the road.

### OBEY TRAFFIC SIGNS, SIGNALS, AND LAWS

Bicyclists must follow the same laws as motorists. Stop at red lights and stop signs just as you would in a car.

## SCAN THE ROAD AROUND YOU

Look ahead and anticipate what other traffic is likely to do. Watch for cars, people, pebbles, crates etc. Learn to look back over your shoulder without losing your balance or swerving.

## RIDE IN A STRAIGHT LINE

Ride in a straight line and far enough from parked cars so you can avoid suddenly opening doors. Riding in a straight line allows others to anticipate what you are likely to do.

## YOU MAY LEAVE A BIKE LANE

When overtaking a bicycle, making a left turn, avoiding a road hazard or other obstruction you are afraid a motorist might turn across your path, you may temporarily merge with CAUTION into the adjacent automobile lane for safety or better visibility.

## CHOOSE THE BEST WAY TO TURN LEFT

There are two ways to make a left turn: 1) Like an auto, signal, move into the left lane, and turn left. Do not turn left from the right lane. 2) Like a pedestrian, use the crosswalk and walk your bike across the sidewalk.

## DO NOT PASS ON THE RIGHT

Whenever you ride, be cautious even when riding in a bike lane. When approaching an intersection or driveway, be especially cautious and do not overtake a vehicle on its right. It might turn right in front of you.

## BE VISIBLE AT NIGHT

The law requires a strong headlight and a rear reflector or taillight at night or when visibility is poor. Wear light-colored clothes with reflective tape for extra protection.

## RIDING ON SIDEWALKS MAY BE PROHIBITED

Protestors have the right-of-way. Give them an audible warning before you pass. Watch for vehicles at driveways and intersections.

## Bicycling Myths

(Courtesy of the Genesee Transportation Council)

### "I'VE GOT TO STAY AWAY FROM CARS."

Being in traffic isn't inherently dangerous - but entering traffic is.

How do you avoid collisions? Enter traffic as few times as possible. There is no danger in riding in a traffic lane - motorists can see you there. The motorist who can see you will avoid you.

(Collisions with cars account for only one-sixth of all bike accidents. You're just as likely to collide with another bike, a dog, or fall without colliding with anything.)

### "I'M MOST LIKELY TO BE HIT FROM BEHIND."

Most car-bike accidents happen at intersections, when either the motorist or the bicyclist makes an unexpected turn across the other's path. In hope of avoiding a rear-end collision, some cyclists ride the wrong way - only to get in trouble at an intersection, because a turning motorist never saw them.

How do you get through intersections safely? Merge with traffic well in advance of the intersection, and position yourself in the proper turning lane. Using turn signals beforehand informs others of your intent, so they can react appropriately.

### "MOTORISTS DON'T CARE ABOUT MY SAFETY."

The vast majority of motorists are rational people who will allow you right-of-way, even if it inconveniences them a little.

Make your riding predictable and courteous.

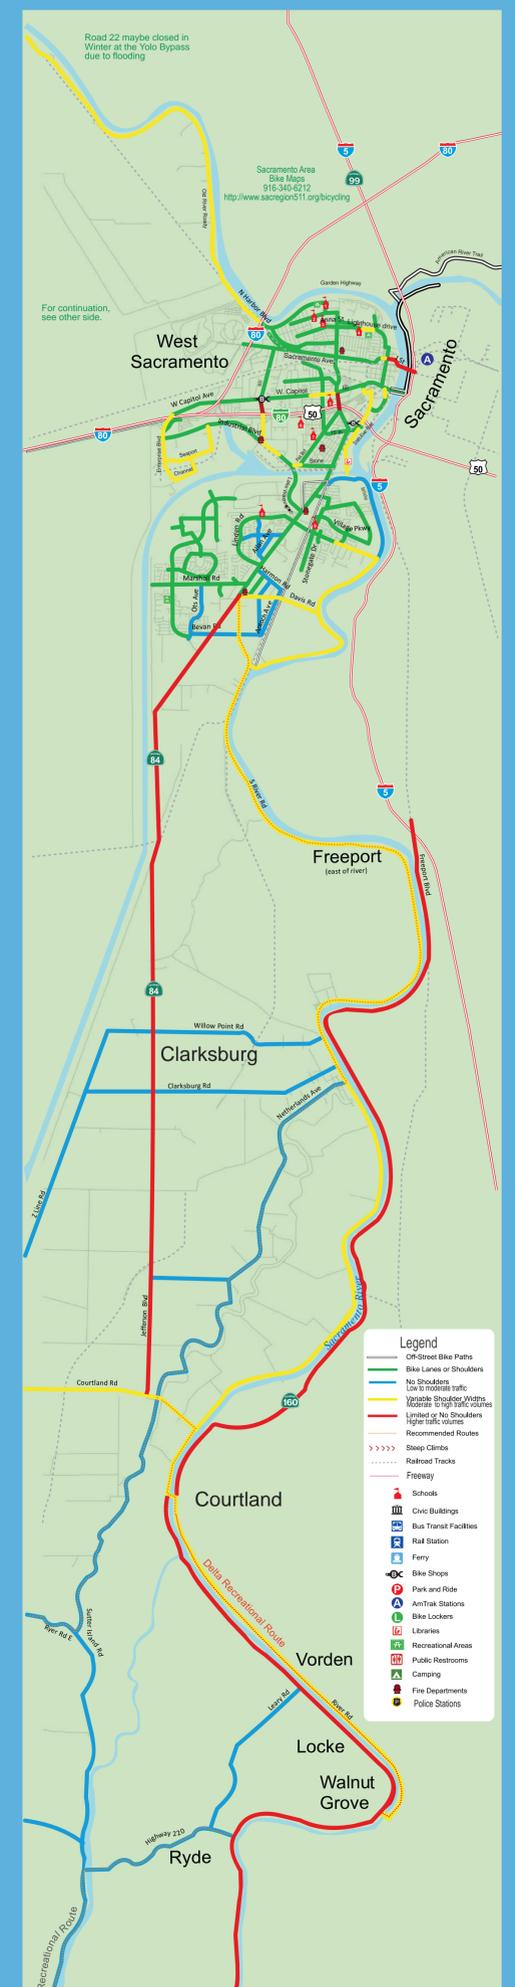

## Loading Your Bike

Let the driver know you will be loading your bike. Do not step in front of the bus until the driver lets you know it is safe to do so.

Bikes can only be loaded at the front end of the bus from the curbside and under no circumstances can you bring your bike inside the bus. Also, the driver can't get off the bus to help, but he or she can tell you how to use the rack.

Remember, instructions are also posted on the rack itself. It is a three-step process and generally takes no more than 30 seconds.

- 1 If the rack is folded up, simply pull it down.
- 2 Lift the bike up and fit it into the rack's wheel wells, which are labeled for the front and rear wheels. If no other bike is on the rack, use the space closest to the bus.
- 3 After the bike is in the rack, simply lift the support arm up and over the front tire. This arm should be in contact with the tire, not the fender or any other part of the bike. It's a good idea to make sure the support arm is in place before boarding the bus and don't forget to pay your fare.

# Rides

There are many riding experiences in Solano County

<p><b>Vacaville</b></p> <p><b>Alamo Creek Bike Route</b></p> <p>Alamo Creek Bike Route in Vacaville offers a serene and safe cycling experience for the entire family.</p>	<p><b>Suisun City</b></p> <p><b>Central County Bikeway</b></p> <p>Central County Bikeway starts in downtown Suisun City at the waterfront and continues along the south side of Highway 12 connecting to the McCoy Creek path as well as various shopping and dining opportunities off of Sunset Boulevard.</p>	<p><b>Dixon-Davis</b></p> <p><b>Dixon-Davis Bike Route</b></p> <p>Dixon-Davis Bike Route connects Solano and Yolo Counties and consists of a series of roads with a mix of terrain. The route goes to Dixon by bike from Davis. The ride to Dixon has some gradual uphill stretches.</p>	<p><b>Fairfield</b></p> <p><b>Fairfield Linear Park</b></p> <p>Fairfield Linear Park, for families and children to ride in a right-of-way separated from roadways. It also connects Solano Community College on the southwest side of town and into the town of Fairfield. The Fairfield Linear Park Path provides convenient bike access to the action on campus and in the city center.</p>
<p><b>Rio Vista</b></p> <p><b>Montezuma Hills</b></p> <p>Montezuma Hills, located south of Rio Vista, offers serious riders a challenging rural route with hilly terrain and often windy conditions, various views including the Suisun Marsh and Sacramento River.</p>	<p><b>Vallejo - Cordelia</b></p> <p><b>Solano Bikeway</b></p> <p>Solano Bikeway runs north from Vallejo. It connects to Cordelia through McGary Road and provides a bikeway parallel to I-80.</p>	<p><b>West Sacramento and Davis</b></p> <p><b>Yolo Causeway Bike Path</b></p> <p>Yolo Causeway Bike Path along I-80 is a popular bicycle commute route between West Sacramento and Davis.</p>	

## The three types of bikeways described by Caltrans in Chapter 1000 of the California State Highway Design manual are as follows:

<p><b>Class I Bikeway</b></p> <p>Typically referred to as a multi-use path, provides a completely separated right-of-way from motor vehicle traffic for the exclusive use of bicyclists and pedestrians. Multi-use paths are also open to strollers, wheelchairs, skateboarders, rollerskaters, etc. Cross flow of vehicle traffic on multi-use paths is minimized. The minimum paved width for a multi-use path is eight feet.</p>	<p><b>Class II Bikeway</b></p> <p>Typically referred to as a bike lane, a Class II Bikeway provides a striped, signed, and signed lane for one-way travel on a side street or highway. Minimum width for bike lanes varies depending on adjacent parking, curb type, and striping. Typically, the minimum travel width for bicycles in a bike lane is four to five feet. Sometimes, especially near intersections, the bike lane may disappear. Cars are permitted to use the bike lane for turning and pulling into and out of parking spaces and driveways. It is legal for bicyclists to leave the bike lane to avoid obstacles, to turn left, pass other bicyclists, or when going as fast as car traffic. Always carefully check for traffic before leaving the bike lane.</p>	<p><b>Class III Bikeway</b></p> <p>Typically referred to as a bike route, provides for shared use of a roadway with motor vehicle traffic and pedestrians and is only identified by signage. No minimum width standards apply to Class III facilities.</p>
---	---	--

**Rural Roadways**

Solano County contains miles of rural roadways. Many of these are appealing to cyclists because they provide scenic or challenging rides for recreation and the link to popular destinations. In many locations, along these roads, bike lanes are not feasible so cyclists use striped shoulders where they are suitable or are required to share the roadway with motorists.

**Safety on Rural Roadways**

The law does not require cyclists to ride in the right in narrow traffic lanes because it is at times difficult to "take the whole lane." However, cyclists must be responsible for their actions. Factors such as your speed, the speed and volume of other traffic, road grades, and surface quality may help you decide where to ride on rural roadways and narrow streets.

**Agriculture and Bicycling**

There are many unique opportunities for cyclists to visit local farms, ranches, and vineyards in the area for fresh food. During various times throughout the year, harvesting takes place to produce and transport crops and livestock. It is important to be mindful that many users including bicyclists, pedestrians, motor vehicles, and growers with heavy equipment share these public roads for movement.

# Bikes on Transit

Bicycles are allowed on most Bay Area transit systems (usually no extra fee) with various restrictions. For the most up to date and detailed information, visit [bikesonit.com](http://bikesonit.com) or call 511 from any SF Bay Region area code.

<p><b>Amtrak</b></p> <p>Bikes may be carried onto Capitol Corridor trains, or no extra charges. All trains are equipped with a limited number of bike racks available on a first-come, first-served basis. Passengers may bring bicycles as unboxed carry-on baggage. On connecting AMTRAK buses to San Francisco, bikes may be placed in the luggage compartment.</p> <p>All trains are equipped with a limited number of bike racks.</p>	<p><b>FAST (Fairfield and Suisun Transit)</b></p> <p>All local routes are equipped with front mounted bicycle racks that carry up to two (2) bikes. Intercity Routes (Routes 20/20A/20B) are equipped with 2 bike racks located in the luggage compartment. If full, additional bikes can be stored on the bus on a space-available basis. Bikes must be clean, have the front wheel removed, and be stored between two forward facing bench seats located behind the rear door.</p> <p>All buses are equipped with front mounted bicycle racks that carry up to two (2) bikes.</p>	<p><b>Rio Vista Delta Breeze</b></p> <p>Rio Vista Delta Breeze offers diverted fixed route bus service within the City of Rio Vista and between Jelen, Rio Vista, Fairfield, Suisun City, Pittsburg/Salt Point BART Station, and Antioch with connections to Lodi. The bus actually comes to your door! Rio Vista Delta Breeze "Too-Short" provides door-to-door service in conjunction with Cab Rides for Rio Vista seniors and persons with disabilities at 50% off the taxi fare.</p> <p>All buses are equipped with front mounted bicycle racks that carry up to two (2) bikes.</p>	<p><b>SolTrans (Benicia/Vallejo)</b></p> <p>All local routes are equipped with front mounted bicycle racks that carry up to two (2) bikes. Intercity Routes (Routes 24/24A/24B) are equipped with 2 bike racks located in the luggage compartment. If full, additional bikes can be stored on the bus on a space-available basis. Bikes must be clean, have the front wheel removed, and be stored between two forward facing bench seats located behind the rear door.</p> <p>All buses are equipped with front mounted bicycle racks that carry up to two (2) bikes.</p>
<p><b>Vacaville City Coach</b></p> <p>City Coach provides transportation throughout Vacaville. A City Coach route may be scheduled on a bike. City Coach boxes of local libraries, City Hall, McBride Senior Center, Ukiah Cultural Center, City Center, or online. We can also help plan your transit trip. Call our friendly transit dispatchers at 449-6000 and we will personalize a transit trip plan just for you!</p> <p>All buses are equipped with front mounted bicycle racks that carry up to two (2) bikes.</p>	<p><b>San Francisco Bay Ferry</b></p> <p>All ferries allow bikes on board unless conditions or passenger loads preclude the safe transport of bikes. Bikes are carried outside on the main deck.</p> <p>All ferries allow bikes on board.</p>	<p><b>Yolobus</b></p> <p>All buses are equipped with front mounted bicycle racks that carry up to two (2) bikes.</p> <p>All buses are equipped with front mounted bicycle racks.</p>	<p><b>Bicycle Clubs</b></p> <p>Benicia Cycling Club (707) 474-3969 <a href="http://www.gbivilla.cic.net">www.gbivilla.cic.net</a></p> <p>Montezuma Cycling Club (707) 461-8153 <a href="http://www.montezumacycling.org">www.montezumacycling.org</a></p> <p>Solano Cycling Club (707) 249-8851</p>

# Destinations

Regional transportation centers allow you to travel throughout the nine (9) Bay area counties. Solano County boasts three major transportation centers:

- Fairfield Transportation Center**
- Vacaville Transportation Center**
- Vallejo Transit Center**

**Solano County Government Center**

The Solano County Government Center is located in Downtown Fairfield and is a hop, skip, and a jump away from the Suisun/Fairfield Amtrak Station. Resources in this area include the Solano County District Attorney's Office, Solano County Services and Justice Center, the Events Center, and various local businesses and restaurants.

**Local Farms, Ranches, and Vineyards**

See [solanogrown.com](http://solanogrown.com) for more information.

**Schools & Education**

Call location for locker availability information.

The Solano Transportation Authority, the Yolo-Solano Air Quality Management District, and the Bay Area Air Quality Management District would like to remind you to Spare the Air. Get out and get some fresh air on your bike today!

**STA's Bicycle Program**

The Solano Transportation Authority has been working with its member agencies and a number of non-governmental groups to increase public awareness and promote bicycling as an environmentally sound, viable commute alternative since its inception in 1990.

The STA adopted its first Countywide Bicycle Plan in 1995. Much progress has been made since the original plan with the development of many regional bikeway segments. Of the County's 416 miles of regional roadway, over 130 miles now contain bike lanes and more than 16 miles of off-street multi-use paths have been developed.

**Solano Napa Commuter Information (SNCI)**

STA's Solano Napa Commuter Information (SNCI) Program supports and promotes bicycling programs in Solano County. SNCI promotes bicycling as a commute mode, develops bicycle maps, provides bridge, transit, and shuttle information for cyclists who use bikes on transit, promotes bicycle safety and education programs, works with employers and the Bicycle Advisory Committee to develop these programs, and promotes California's Bike to Work/School Week.

**Solano BAC**

An important component of the STA's Bicycle Program is the Solano Bicycle Advisory Committee (BAC), which is composed of representatives and staff from the STA's member agencies. The BAC meets on a regular basis to review and recommend countywide

**The STA and SNCI recognize that:**

- 1 Bicycling is a viable form of transportation that can be used for commuting, work or school, running errands, and for recreation.
- 2 Bicycling improves physical health and can give a sense of independence and freedom.
- 3 Bicycling enhances our ability to experience and interact with the vibrancy of our communities, something that is very difficult to do when inside a car.
- 4 Bicycling is economically efficient, costing the commuter bicyclist on an annual basis, approximately one-quarter as much as driving.
- 5 Bicycling is a renewable form of transportation and is nonpolluting.
- 6 Bicycling reduces the consumption of fossil fuels, alleviates traffic congestion, and improves the region's air quality.
