

We learned through polling and public input that the top 3 transportation priorities for Solano County residents are:

-  Pothole Repair
-  Road Safety
-  Mobility for Seniors and People with Disabilities

Do you agree?

Tell us about a specific project or program you'd like to see, or a problem you want addressed.

Please tell us a little about yourself:

City of Residence _____

Email Address _____

Yes I want to receive updates from STA on transportation priorities.

Fill out the attached survey, tear it off, and use our postage paid return card to mail it back to us.

Let Us Hear From You

There are four ways you can participate:

1. JOIN A TELEPHONE TOWN HALL MEETING

Please join us for a telephone town hall meeting to continue the conversation about our streets and give your input on funding priorities.

South County Telephone Town Hall: Monday, February 8 at 6 pm

North County Telephone Town Hall: Tuesday, February 9 at 6 pm

At the time of the call, dial 1 (877) 229-8493 and enter access code 112664.

2. FILL OUT AND RETURN THE SURVEY

Fill out the attached survey, tear it off, and mail it back to us. Postage is paid.

3. GIVE YOUR INPUT ONLINE

Visit www.sta.ca.gov to weigh in with your priorities and ideas online.

4. CONTACT US BY EMAIL OR PHONE

Write us at info@sta.ca.gov or call us at 707-424-6075 to share your thoughts.

Solano County's Streets Need Fixing

And We Need Your Help!

SOLANO COUNTY'S STREETS NEED FIXING

We Want to Hear From You

For 25 years, Solano Transportation Authority (STA) has delivered high-impact transportation projects and programs by leveraging local, regional, state and federal dollars. Our priorities and vision are shaped by your ideas. We've conducted extensive outreach as we plan for the future and certain priorities have emerged. However, cuts in state funding and a lack of local resources has inhibited our ability to address all these issues. As we make priorities for potential future investments, we want to hear from you.

Fixing Potholes

Nearly every person in Solano County depends on our local streets and roads. A 2014 Solano Pothole Report showed that Solano County is currently spending half of the money needed to maintain quality roads. More investment in our roads now can save our communities millions in the future and strengthen our local economy. Participate in helping us find a solution!

Safer Roads

Collisions on our roads have increased since 2012. STA has completed 35 projects aimed at making our roads safer, including improving signaling and adding new stop signs. There are still 65 more locations that have been identified as having one or more safety concerns.

Supporting Seniors and People with Disabilities

Solano County's senior population is growing. It is estimated that seniors will represent 21% of the county by 2040. The county currently offers programs that provide transportation services for seniors and people with disabilities, but more investment is needed to keep up with the growing demand. Investments in transportation programs for seniors will provide much needed mobility for this expanding population.
