**Revised Draft RTIF Project List**

- A.** Robert Guerrero gave an overview of the draft RTIF project list. Mr. Guerrero stated that this list has been submitted to the Stakeholders Committee. Mr. Guerrero noted the list includes each city and is consistent with the Comprehensive Transportation Plan (CTP) List. Mr. Guerrero followed by saying these are the projects that would be considered for the Nexus Study. Mr. Halls stated that now is this committee's opportunity to add any projects or ask any questions of the projects on the list. Mayor Patterson inquired if the CTP is the controlling criteria, and if it would include any other alternative to roads, recommending that it should include bicycles or other alternatives. Mayor Patterson also asked if this is an STA list or a City by City list. Mr. Halls, STA, replied that it must be on the CTP list to be eligible. Mr. Halls stated this list was submitted by the cities. Mr. Halls added if there is not a project on the list, now is the time to add it to the list. Mayor Patterson stated that in the future the STA's Bicycle Routes should be listed. Mr. Halls added that this list is what the RTIF committee's

wanted to go through the Nexus Study. Mr. Spering inquired if everything on the list is eligible but not going to be completed. Mr. Halls confirmed that the list is only to see what is eligible. Mr. Halls followed up by stating that at the next meeting, this list will be an action item and will include any changes made by this Committee. Chair Spering inquired if each agency needed only to review what their project list was. Mr. Halls confirmed this list was for each jurisdiction to review. Chair Spering took a roll call for each jurisdiction to confirm, add or remove any projects. Gary Leach of Vallejo stated that Vallejo Station was listed 3 times, Phase A is fully fund and does not need to be listed. Ms. Patterson made a motion to add the STA Bicycle regional routes to this project list. The Committee unanimously agreed to add the STA Bicycle regional routes for inclusion of the Nexus Study.

**B. Implementation and Allocation Options**

STA staff gave an overview of the sample counties that are similar to Solano County and what type of RTIF programs and why they chose their individual types of programs. Daryl Halls stated that a recommendation is not requested at this time.

Sam Shelton explained how the how different RTIF programs can be analyzed with the chart and the benefits and drawbacks of different programs. Mr. Halls stated that the next step would be for STA staff to take some sample projects, one from each jurisdiction and different type, and apply the criteria so the Committee can see how this may work. Mr. Halls continued with saying that an example fee range and implementation options would be set for this sample so the committee could see how this would work.

**VII. NEXT POLICY COMMITTEE MEETING TOPICS**

**A. RTIF Project List, Implementation and Allocation Options**

Mr. Halls stated that after the Committee reviews this information, the consultant can submit for the Nexus Study.

- 1) Project list for action
- 2) Scenario discussions
- 3) Current fee levels for the five counties that the Committee discussed

**VIII. CLOSING COMMENTS FROM COMMITTEE MEMBERS**

Mayor Patterson asked if the Committee could add a clause stating that the fees could be reduced if there is a down turn in the economy.

**IX. ADJOURNMENT**

The meeting was adjourned at 5:00 p.m. The next meeting of the **Regional Transportation Impact Fee Policy Committee** will be **May 12, 2010, 3:30 p.m. at the Suisun City Council Chambers.**

### IV. ACTION ITEMS

**A. RTIF Project List**

Robert Macaulay, STA staff, reviewed the recommendation of the Regional Transportation Impact Fee (RTIF) committees for the project list that is to be submitted for the Nexus Study. Mr. Macaulay stated that were a couple of changes made to the project list since this committee adopted the list. The first change is the projects CTP review is completed and Gary Leach of Vallejo has review the list and asked that two projects be removed as they would not qualify for funding. Mr. Macaulay added that during the RTIF Policy Committee meeting Mayor Elizabeth Patterson, City of Benicia, requested that the project list include the Solano Bicycle Master Plan be incorporated into the project list to be submitted for the Nexus Study.

Jason Moody, Economic Planning System, stated that this Nexus Study is not just traffic generated but also includes safety related projects. New developments will benefit with these safety improvements.

Mr. Macaulay noted changes or the RTIF working group which include removing 119A which is Vallejo Station ferry terminal parking structure, phase A as it has gone to bid, and make the bicycle routes a single line item

On a motion from Gary Leach and a second from Royce Cunningham the STA RTIF Technical Working Group approved the recommendation with noted changes to RTIF Stakeholders and RTIF Policy Committee to approve the RTIF Project List for use in the RTIF Nexus Study Analysis as shown in Attachment A.

### V. INFORMATIONAL ITEMS

**A. Applied RTIF Criteria to Sample RTIF Project List with Funding Revenue Estimates by Example Implementation Options & Fee Ranges.**

Sam Shelton, STA staff, reviewed the example of Implementation options and fee Ranges and noted that this committee had seen most of this before. Mr. Shelton stated that the Model TAC committee has approved to move forward to use the model for the RTIF analysis. Mr. Shelton continued with a review of the different options for implantation of the funding scenarios from pages 54-56. Mr. Moody stated that this

- . is only a sample scenario to calculate what the fee revenue may be and how the fees would be implemented. Mr. Moody used the map where Solano county was divided into four districts. By using the ABAG project rate of growth, it was estimated how much money would be generated in the next ten years. Jason continued with the different scenarios and how the money would be allocated. Mr. Cortright, City of Fairfield, inquire of the return to source and who would determine how that money was allocated. Mr. Halls, STA, stated that the people of this working group would be the decision makers unless it is decided that the STIA would to make all the decisions. Mr. Halls continued with that most of this is still to be decided however the public works group and possibly their policy group from the STA board were an option, there are several options. Mr. Halls informed the committee that the districts on the supplied map are just designed to be able to give the committees an idea of fees and how the monies may be spent. The working group discussed the different options, possible problems and solutions regarding the divisions of the monies and then suggested that an option for the county be added. The committee decided to add sample option six which would read 40% return to source, 40% STIA and 20% to county.

April Wooden, City of Suisun City, inquired how you reach a fee structure for this program. Mr. Moody said that some areas use a fee based on residential or business, flat rate or price per square foot. Jason continued by saying that it will be on the decision of the committees on what base would be set. Mr. Moody also added that if you set the fee high, it would be the jurisdiction's choice to use a lower fee on a case by case situation. Mr. Halls added that you can use credit on to each production. Mr. Moody also suggested placing a cap on how high the fee can be in relation to the cost of the development.

Royce Cunningham, City of Dixon asked that each jurisdiction bring in their fee structures at this time

The committee stated that this could be presented to the STA Board with the added option six (40/40/20), however they do not want it stated that the Working group backs one option over another. Mr. Moody suggested not taking table 2 to the Board at this time as more research is needed.

## **VI. NEXT TECHNICAL WORKING GROUP COMMITTEE MEETING TOPICS**

- A. Applied RTIF Criteria to adopted RTIF Project List**
- B. How is the fee per development going to be determined**
- C. Future options or Topics**

## **VII. CLOSING COMMENTS FROM COMMITTEE MEMBERS**

No closing comments from committee members.

## **VIII. ADJOURNMENT**

The meeting was adjourned at 1:35 p.m. The next meeting of the STA RTIF Working Group meeting will be scheduled for **Thursday, June 10, 2010 at 1:30 p.m. at the Solano Transportation Authority, Main Conference Room.**

FROM: Robert Macaulay, Director of Planning  
RE: RTIF Project List

---

**Background:**

The Regional Transportation Impact Fee (RTIF) committees have recommended to the STA Board that criteria be adopted to select projects that may be eligible for funding if the RTIF is established. Those criteria are identified in Agenda Item V.A. The sole screening criteria is that projects eligible for the RTIF must be included in the Comprehensive Transportation Plan (CTP) project list. At the RTIF Policy Committee meeting of March 10, 2010, Mayor Elizabeth Patterson requested that projects included in the Solano Bicycle Master Plan also be incorporated into the RTIF project list.

The STA Board adopted the CTP project list at its meeting of February 10, 2010. The CTP project list includes all those projects contained in the Solano Bicycle Master Plan project list. The STA Board adopted the Solano Bicycle Master Plan project list at its meeting of March 10, 2010.

**Discussion:**

Attachment A is the RTIF project list, with the Solano Bicycle Master Plan projects incorporated. The CTP project list has been edited to exclude items such as on-going funding of roadway maintenance or the Solano Napa Commuter Information program.

Items that are on the RTIF Project List will be further evaluated with criteria identified in Agenda Item V.A, in order to develop a final, ranked project list.

**Recommendation:**

Forward a recommendation to the STA Board to approve the RTIF Project List for use in the RTIF Nexus Study Analysis as shown in Attachment A.
